

## OUR HOPE....

The mission of Community Action Agencies is rooted in helping people move out of poverty. As Community Action Professionals, we know that you cannot move out of poverty by receiving a single service.

Poverty is complex and requires a multifaceted plan. Our hope is that individuals and families will build a relationship with a **Resource Coordinator** that will empower them with the tools they need to become self-sufficient.

## OUR VISION.....

Our vision is to focus on individual and family's strengths. By doing this, we want to instill hope that change can and will be made.

**Resource Coordination** is a great way for individuals and families to build relationships and strengthen their ties to their community.

**Resource Coordination** is a process whereby an individual and/or family's needs are identified and services are coordinated in a systematic way.

The core elements of **Resource Coordination** at LHDC include assessing an individual or family's needs, developing a plan of action, implementation (service delivery), and follow-up at regular intervals to ensure that all needs are met.

Some ways that **Resource Coordination** can benefit individuals and families include areas such as:

- *Housing*
- *Income and Employment*
- *Access to Healthcare*
- *Support Systems*
- *Education*
- *Linkage to Transportation*
- *Food*

For more information or to make a referral for Resource Coordination contact us at
